

# Mesut Kaçmaz

## Software Developer

Ankara, Türkiye | (552) 269-9708 | mesut.kacmaz@outlook.com | mesutkacmaz.com | github.com/mesutkacmaz

## SUMMARY

Software developer with experience across frontend and backend development. I began working with HTML, CSS, JavaScript, and React in 2020 and later expanded into backend development with Node.js. While studying, I worked at two software companies and graduated from İzmir Bakırçay University with a B.Sc. in Computer Engineering in June 2022. From January to June 2023, I worked remotely as a backend developer on a shipment-tracking application for EKOL Lojistik. Since January 2026, I have been working as a Computer Engineer at the Health Institutes of Türkiye (TÜSEB), where I review and validate software architecture and technical decisions for the Üreten Sağlık health innovation platform.

## EXPERIENCE

### Health Institutes of Türkiye (TÜSEB)

Ankara, Türkiye

#### Computer Engineer

January 2026 – Present

- Review and validate software architecture and technical decisions for the Üreten Sağlık health innovation platform (uretensaglik.gov.tr).

### Secure Computing

İstanbul, Türkiye

#### Software Developer (Remote)

January 2023 – June 2023

- Developed the backend of a shipment-tracking application for EKOL Lojistik using NestJS, covering the cargo journey from domestic origin to international arrival.

### İzmir Bakırçay University — IT Department

İzmir, Türkiye

#### Full-Stack Web Developer (Intern)

April 2022 – June 2022

- Optimized syllabus planning by accounting for the constraints of academic staff, classrooms, and faculties across the university.

### Assistant App A.Ş.

İzmir, Türkiye

#### Junior Backend Developer (Intern)

December 2021 – April 2022

- Built the Muslim Assistant mobile application from scratch with Node.js and Express.
- Integrated the Stripe Subscription API to add premium membership features.

### Techtile Yazılım A.Ş.

İzmir, Türkiye

#### Full-Stack Web Developer

September 2021 – December 2021

## EDUCATION

### İzmir Bakırçay University — B.Sc. in Computer Engineering

2018 – 2022

GPA: 3.15

### Batman Science High School

2012 – 2016

## SKILLS

|           |                                                                      |
|-----------|----------------------------------------------------------------------|
| Frontend  | HTML · CSS · TailwindCSS · JavaScript · TypeScript · React · Next.js |
| Backend   | Node.js · Express.js · Fastify · NestJS · .NET                       |
| Databases | SQL · MySQL · PostgreSQL · NoSQL · MongoDB                           |
| Tools     | Git                                                                  |
